DETAILED ACTION

Examiner's Note

The examiner notes that in the requirement for restriction mailed 10/12/2006 the examiner failed to acknowledge the preliminary amendment filed. In view of such the restriction requirement of 10/12/2006 is withdrawn. An election of species requirement is still deemed necessary for the reasons indicated below and as applicant did not choose a species in response to the restriction requirement.

Species Election

This application contains claims directed to the following patentably distinct species: compounds of Formula I (I-A to I-I), compounds of Formula II (II-A to II-D), compounds of Formula III (III-1 to III-31), compounds of Formula IV (IV-1 and IV-2), compounds of Formula V (V-1 and V-5), compounds of Formula VI (VI-1 and VI-11), compounds VII-XII, compounds of formula R1-R2-R3-R4-R5, SEQ ID NOs: 20-34, SEQ ID NOs: 20-30 with amidated C termini, SEQ ID NOs: 31-34. The species are independent or distinct because the species encompass broad and diverse structural groups with non-overlapping structural features.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-17 are generic.

Art Unit: 1617

To be fully compliant with the species election applicant must clearly point out which compound with all relevant R groups and/or SEQ ID NOs and sequences designated as necessitated by applicant's species election.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected species.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Art Unit: 1617

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

A telephone call was not made to request an oral election to the above restriction requirement due to the complexity of the restriction requirement.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leonard M. Williams whose telephone number is 571-272-0685. The examiner can normally be reached on MF 9-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sreeni Padmanabhan can be reached on 571-272-0629. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
